Data Analyst with hands-on experience in analytics, dashboarding, and enterprise reporting (SAP Analytics Cloud), currently expanding into cloud computing through the AWS re/Start program. Skilled at translating business needs into scalable technical solutions and supporting end users in live environments.

Key Skills

- **Data Analysis & BI:** SAP Analytics Cloud, Power BI, SQL, Dashboarding, Reporting
- **Cloud & Infrastructure:** AWS (Cloud Practitioner – in progress), Linux, Networking, Security
- **Programming:** Python, SQL, HTML, CSS, Java, C/C++
- **Databases & Big Data:** Spark, MySQL, PL/SQL
- **Data Science & AI:** Machine Learning, Deep Learning, LLMs, RAG
- **Tools & Ways of Working:** Git/GitHub, Docker, Jira, ServiceNow, Agile (Scrum)

Professional Experience

AWS re/Start Participant

06/2026 – Present

Orange Digital Center Tunisia – On-site

- Selected for the 5th cohort of AWS re/Start; building hands-on skills in AWS, Linux, networking, security, and Python through labs and project-based learning.
- Preparing for the AWS Certified Cloud Practitioner certification.

AI & Data Projects – Personal Projects

01/2026 – 05/2026

- Built an enterprise-grade RAG system and a context-aware AI SQL Copilot (Python, LangChain, FAISS/Chroma, FastAPI) to improve contextual Q&A and query generation.

Data Analyst for SAP Analytics Cloud (SAC)

05/2025 – 12/2025

SAP – External (Remote)

- Delivered analytical solutions and dashboards for clients using SAP SAC, translating functional requirements into technical designs on live/import BW and HANA data models.
- Monitored feature releases, authored technical documentation, and provided real-time client support via Expert Chat.

Python Developer & AI Quality Analyst

11/2024 – 04/2025

Originator – Freelance (Remote)

- Evaluated and improved LLM-generated outputs for accuracy and reasoning quality, automating evaluation with Python and contributing to RLHF dataset refinement.

Earlier Internships

07/2022 – 10/2024

- **TU Chemnitz (Germany):** EEG-based epileptic seizure classification pipeline, deployed on Raspberry Pi4.
- **Leoni (Tunisia):** CNN-based employee recognition and emotion detection (TensorFlow, OpenCV).
- **The Sparks Foundation (Remote):** EDA and a hybrid stock-prediction / sentiment-analysis model.
- **TUNSA/ESPITA – Tunsat1 Satellite Project:** STM32-based CubeSat communication protocols; presented to JAXA and UNOOSA.

Education

Engineering Degree, Industrial Computer Science Engineering2021 – 2024

National School of Electronics and Telecommunication of Sfax (ENET'Com) – Tunisia

- Engineering courses focusing mainly on Information Systems, Computer Engineering, Artificial Intelligence, Object-Oriented Programming, Robotics, IoT and Industrial Computing.

Pre-Engineering Degree2019 – 2021

Preparatory Institute for Engineering Studies of Monastir – Tunisia

- Preparatory cycle for engineering studies: Linear Algebra, IT, Mathematical Fundamentals, Physics, Chemistry, and basic Computer Science.

Languages & Certifications

Languages

- English: Fluent
- French: Fluent
- Arabic: Native
- German: A2

Certifications

- Data Science Professional Certificate | IBM – Coursera, 2025
- Scrum for Ops and DevOps Fundamentals | SCRUMstudy, 2024
- CNA 1: Introduction to Networks | Cisco, 2023
- Machine Learning Specialization | DeepLearning.AI – Coursera, 2023

Volunteer Work & Achievements

- **Human Resources Manager, Club Aeromodelisme ENET'Com** (09/2022 – 07/2023): Soft skills trainer (Team, Time, Stress management); founded and led the “ENET AERO CUP” national aeromodelling competition.
- **2nd Prize, Hackathon '23** (2023): Smart Solutions for the Automotive Sector, Digital Research Center of Sfax.
